

HURON GRANTS

CONFIGURABLE SOFTWARE TO SPEED BUDGETING, STREAMLINE ESUBMISSION AND IMPROVE AWARD MANAGEMENT

The fiercely competitive research environment challenges institutions to maintain a world-class research enterprise that moves society forward, promotes innovation and advances knowledge — all without adding additional administrative burden to researchers.

Simplify sponsored project lifecycle processes while meeting sponsor and institutional compliance requirements with Huron's grants solution. Huron Grants provides a flexible, scalable and configurable electronic grants management and system-to-system proposal-submission solution.

Its robust, flexible workflow provides electronic routing for internal review, notifications and error checking, helping to ensure transparency and a first-time grants.gov successful submissions. Comprehensive post-award management capabilities include award setup, modification entry, workflow routing reviews and approval capabilities, budget reconciliation to enter and track sponsor approved budgets, and complete integration with financial systems.

Huron Grants is part of the Huron Research Suite, a comprehensive solution to facilitate communication, relieve administrative burden and free up time for what matters most — your research mission.

ORGANIZATIONAL BENEFITS	SOFTWARE FEATURES
Streamline data entry and prevent user input errors throughout a sponsored project's lifecycle	Robust setup and configuration options
Facilitate accurate on-time submissions	Support for full proposal lifecycle, including real-time visibility into proposal processes and statuses and electronic proposal submission
Standardize budget preparation and review while complying with institutional and sponsor budget requirements	Flexible online budgeting for sponsor, sub-recipient and cost-share requirements
Automate proposal creation by repurposing large amounts of proposal data and budget data to create new submissions	Copy and create functions provided throughout proposal and award
Automate and streamline the preparation and submission for multi project applications	Complex projects support in Grants and SF424
Automate SF424 submissions across NIH, NSF, DoD, and more	SF424 forms library
Minimize sponsored research review time	Application change tracking
Eliminate redundant data entry	Data mapping from transmittal and budgets to SF424 forms
Simplify application submission	One-click S2S eSubmissions to Grants.gov
Ensure first submission is accurate and complete	Grants.gov and NIH validation checks
Simplify award entry through awarded-proposal processes, leveraging proposal data for new award	Automated award creation
Access one source for entering and tracking data from award setup to close out	Comprehensive award management

ORGANIZATIONAL BENEFITS	SOFTWARE FEATURES
Expedite award setup and improve financial accuracy	Award budget reconciliation
Ensure consistent processes and timely reminders to researchers and staff for pending work items provide transparency into workflow statuses throughout the process	Automated proposal and award management workflow, notifications and milestone triggers
Standardize management of sub-recipients	Sub-recipient monitoring
